

Green Finance for Low-Carbon Technologies: Clean Hydrogen and CCUS

Training

8th September, 2022
3pm – 4pm (HKT)

Panel Discussion

27th October, 2022
3pm – 4:15pm (HKT)

You are invited to the two-part seminar “Green Finance for Low-Carbon Technologies: Clean Hydrogen and Carbon Capture Utilization and Storage (CCUS)” of the Alliance for Green Commercial Banks, co-organised by the International Finance Corporation (IFC), the Hong Kong Monetary Authority (HKMA) and Bank of China (Hong Kong).

In the training session, experts will present an overview of clean hydrogen and CCUS, the key developments, and the roles financial institutions can play to drive further deployment.

Asia’s energy transition is critical to reaching net zero globally. How can clean hydrogen and CCUS help balance security, affordability and sustainability while supporting the region’s growth and meeting international climate goals? In the roundtable discussion, real-sector practitioners, investors, researchers and policy makers will share the best practices in Hydrogen and CCUS, policy framework and investment strategies on developing these technologies, and the application in Asia & the Pacific driven by larger public and private investments.

	Part 1. Training	Part 2. Panel Discussion
Time	3:00pm-4:00pm (HKT) 8 September 2022	3:00pm-4:15pm (HKT) 27 October 2022
